

Master Index

- First Lines are listed in upper and lower case letters. TUNE NAMES and SONG TITLES are listed in all UPPER CASE (CAPITAL) letters.
- Some entries may be repeated with different reference numbers. This usually indicates that either these tunes were different enough to justify separate recordings, or are distinctly different tunes.
- Naming discrepancies between hymn books can result in a tune being listed more than once (with different reference numbers) even though each number produces the same musical result.
